

Course:	3035 2016FA1 - Health Law Quality and Liability	Department:	GENERAL
Responsible Faculty:	Thaddeus Pope	Responses / Expected:	5 / 15 (33.33%)
Overall Mean:	4.50 strongly disagree-neutral-strongly (20 responses)		

Q1 - What are the top two or three things you gained from taking this course?

Response Rate: 80.00% (4 of 5)

- Very good information to know and very fascinating.
- I really enjoyed learning about the different statutory provisions in health law. The common law is pretty straight forward (it's all tort based) and quick to grasp. I enjoyed learning more about the different statutes that I would not have otherwise known about or learned how to use/analyze.
- I gained a pretty solid understanding of the relevant statutory and common law regarding liability issues in health law.
- A better understanding of the fundamental Health Law as it sits today.
- Extensive and well composed PowerPoints.

Q2 - How could this course be improved?

Response Rate: 80.00% (4 of 5)

- Maybe a little more class involvement with hypotheticals. We did some of this, however.
- From the readings we had, I didn't feel like it was necessary to wait each week to post the readings week-by-week. There were no breaking changes in the law that precluded the readings to be posted. And I assume Professor Pope has taught this course before, so he already had the readings? This was always a confusing part of the course for me.
- Focus longer on the federal statutes because they are so lengthy.
- A larger group may have led to more spirited discussions.

Q4 - What are the two or three most effective things this professor did to advance your learning in this course?

Faculty: Pope, Thaddeus

Response Rate: 80.00% (4 of 5)

- Professor Pope tells you exactly what he expects, provides the up-to-date legal standards, and presents the concepts with precision and clarity. Great professor, overall.
- I enjoyed the weekly quizzes. I liked constantly testing my abilities and knowledge, and, generally, the questions that came out of the quizzes were helpful in understanding the material better.
- He was really funny. Very relaxed and I felt it was very easy to learn.
- Great PPTs.
- Well targeted readings.
- Real world examples beyond the readings.

Q5 - What are two or three things you wish this professor would have done differently in this course?

Faculty: Pope, Thaddeus

Response Rate: 60.00% (3 of 5)

- We did hypotheticals, but I wish we did some more as a class. I learned a lot from hearing how the professor and other classmates think through the problems.
- Posted the readings online at the beginning of the course. Otherwise, great course! Really just a minor thing.
- Focused heavier on EMTALA, ADA, ERISA. I understand though time is limited.

Q6 - Please share comments, positive or negative, on the reading materials your professor chose for this course.

Faculty: Pope, Thaddeus

Response Rate: 40.00% (2 of 5)

- Some weeks were fine, but several weeks just had too much material (50+ pages). I think 30-40 pages a class is manageable.
- Excellent selections. On point and appropriately shortened when possible.

Q7 - Please share comments, positive or negative, on any specific assignments your professor required you to complete in this course.

Faculty: Pope, Thaddeus

Response Rate: 20.00% (1 of 5)

- The exam was really hard, but that's expected from a take home exam. I think it was fair for something we have for 48 hours.
